

Pub. 47 Archive

- Pub. 47 from 1955 to 1972 has been digitised by NOAA/CDMP.
- Metadata combined with exiting digital metadata to give dataset from 1955-2006.
- Metadata associated with individual ICOADS reports and made available via NCAR.

Questions for ETMC

- Are the metadata sufficiently accessible?
- What should be the future priorities?
 - Incorporation of 1967 supplement?
 - Populating ICOADS website with metadata and documentation?
 - Update of ICOADS metadata attachment?
 - Improving matching rates to ICOADS?
 - Investigating non-Pub. 47 sources (e.g. questionnaires, observing instructions, contemporary accounts)?
 - Other?
